The programme aims to create a safe, supportive, and empowering environment where young people can build skills, strengthen social connections, and engage more actively with their local community.

As the first action of the SOLEA Initiative, the programme has been designed with a strong focus on gradual community engagement, meaningful participation, and creating positive experiences for young people in the region.

The programme is primarily intended for young people living in the Solea region. However, participation is also open to families from other districts who are able to arrange daily transportation to and from Evrychou.

Upon completion of the programme, participants will also have the opportunity to become part of the HFC Young Ambassadors Group, opening the door to participation in future internal initiatives, and European programmes.
